

Title: Policy on Credit for Experiential Learning in the SBB Program

Purpose

To establish clear information regarding credit for practical experience and research prior to entering the SBB program

Materials

N/A

Procedure

A. Credit for previous clinical experience in replacement of clinical rotation practicums

Step Action

1. Experience must have occurred within the last 5 years.
2. Experience must be deemed relevant to the SBB curriculum requirements.
3. Student must have been competent to perform testing, including CLIA as appropriate.
Note: Does not include work performed while part of an MLS, MT or BB program.
4. Verifiable documentation shall be provided to the Program Director such as a resume or CV with employer verification letter stating dates clinical experience performed. Additional documentation shall be presented as outlined in the Clinical Rotation Practicum SOP.

B. Credit for previous research or publications to fulfill requirement of research, white paper or other similar activity.

1. Research or publication must have been your own hypothesis, plan or writing.
2. Activity must have occurred within the last 5 years.
3. Verifiable documentation must be provided to Program Director based on the activity performed.

C. Evaluation of verifiable documentation.

1. Program Director and or designated faculty members will review submitted materials.
2. Determination shall be based comparison of the documentation provided and the activity to be credited.
3. Student will be notified in writing of the decision within 30 days of receipt of request for experiential learning credit.

Expected Results

N/A
